

## Individual Activity: Using Integers to Find Net Worth

Name: \_\_\_\_\_ Date: \_\_\_\_\_

### PERSONAL NET WORTH ACTIVITY

<b>Assets</b>	
Checking Account	
Savings Account	
<b>Liabilities</b>	
Credit Card	
Student Loan	
<b>Net Worth</b>	

**Directions:** In the space below, use the information in the above template to prepare a “personal” net worth statement. You are encouraged to use “pretend” numbers in your statement, rather than revealing any personal information. You may also choose to change the categories in the liabilities (add a car payment instead of the student loan, etc.) to better reflect your personal situation, but you are still encouraged to use only “pretend” numbers.
