

You Be the Teacher - Aggregate Demand

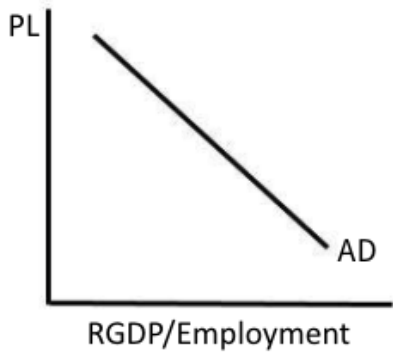

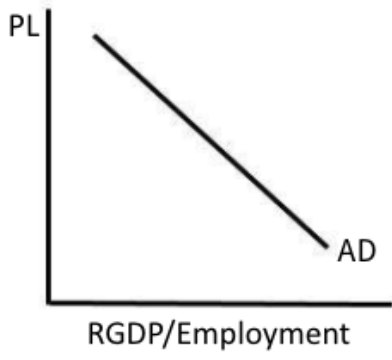

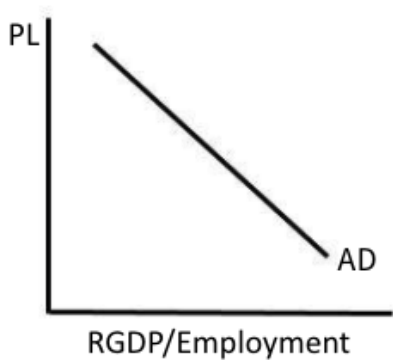

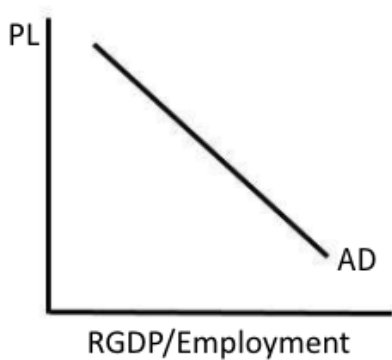

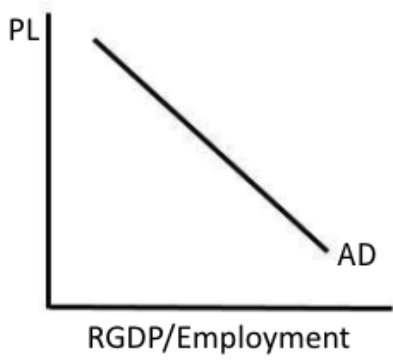

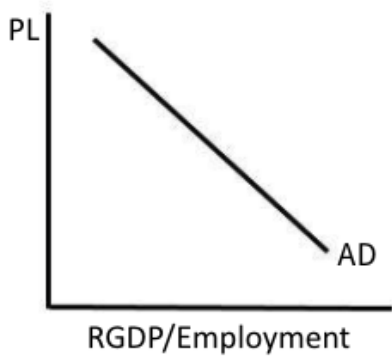

Name _____

Period _____

Step One: (Teacher Role): For each graph, select an event that could affect aggregate demand. For example, you could write "People are worried a recession could be coming."

Step Two: Exchange papers with another person.

Step Two: (Student Role) If the event written by the person in the Teacher Role would shift aggregate demand, draw a new curve and label it AD₂. Finally, list the cause of this shift as *Consumer Confidence*, *Income*, *Income Taxes*, *Consumer Expectations*, *Government Spending*, *Investment*, or *Net Exports*. If the event would lead to a movement along the AD demand curve, draw this and, for cause, write *Change in Price Level*.

 <p style="text-align: center;">Event:</p> <p style="text-align: center;">Cause:</p>	 <p style="text-align: center;">Event:</p> <p style="text-align: center;">Cause:</p>
 <p style="text-align: center;">Event:</p> <p style="text-align: center;">Cause:</p>	 <p style="text-align: center;">Event:</p> <p style="text-align: center;">Cause:</p>
 <p style="text-align: center;">Event:</p> <p style="text-align: center;">Cause:</p>	 <p style="text-align: center;">Event:</p> <p style="text-align: center;">Cause:</p>
